UNITED STATES
PATENT AND TRADEMARK OFFICE

Patent Center overview

Replaces legacy patent application systems (EFS-Web, Public PAIR, Private PAIR) for filing and managing patent applications

Single interface

- Features unified and intuitive interface for filing and managing patent applications
- Single search bar for retrieving applications

Recent technology

- Sponsorships carry over from EFS-Web and PAIR to Patent Center
- Updated infrastructure allows for more efficient USPTO system integration
- Enables increased functionality and overall system usefulness

Authentication

- Use your USPTO.gov account that is used to access EFS-Web and Private PAIR
- Role-based access
 - Practitioner
 - Support Staff
 - Independent Inventor
 - Guest

Patent Center overview

- DOCX/XML features including multi-section DOCX
- Upload multiple documents at a time
- Drag and drop for document upload
- Intuitive document codes/descriptions
- New look and feel (user interface)
- Save submissions at any time

Patent Center

Patent Center is the Next Generation System that will replace EFS-Web and PAIR for filing and managing patent applications.

Patent Center features a unified, user-friendly interface and will eventually incorporate all the capabilities of EFS-Web, PAIR, and much more.

Fall 2019 Patent Center limited beta release

- System: Next Gen
- Participants: external (via registration)
- Invitee-only training sessions

Early 2020 Patent Center beta release open to public

- Anyone may join the beta
- Open training sessions
- Incorporate additional features based on user feedback and stakeholder interests

Mid-2020 Continued refinement of Patent Center beta

- Gather and review external input from stakeholders
- Continue to add functionalities found in EFS-Web, Public PAIR, and Private PAIR
- Continue to improve back end systems integration

2020-2021+ Patent Center with full functionality

- Continue support of Patent Center beta and EFS-Web, Public PAIR, and Private PAIR
- Refine previous features
- Finish incorporating functionality found in EFS-Web, Public PAIR, and Private PAIR
- Start to prepare for the decommission of EFS-Web, Public PAIR, and Private PAIR

2022 Decommission EFS-Web, Public PAIR, and Private PAIR

- Decommission EFS-Web, Public PAIR, and Private PAIR
- Continue to add new functionality based on user feedback

Guidelines highlights

- Utilize Patent Center for the features that are available. Features that are not yet available can be accessed via EFS-Web and PAIR.
- The use of Patent Center will not change any statutory requirements.
- Refrain from submitting the same documents through both Patent Center and EFS-Web.
- Contact the EBC by phone, email, and/or the eMod mailbox to document errors, problems, or questions during the beta release period.
- Notify the USPTO eMod Team through the Patent Center Beta Release **IdeaScale** Campaign with any helpful suggestions for new or improved features.

■ Available

■ Available with DOCX

Submission type	Guest	Independent inventor	Practitioner	Practitioner support
Existing submission				
Upload documents / Pay fees		■	■	■
Corrected ADS		■	■	
Web Issue Fee Transmittal (85b)			■	
eTerminal Disclaimer		■	■	
ePetitions				
Petition to make special based on age	■	■	■	
Request for withdrawal as attorney or agent of record			■	
Petition for revival of an abandoned patent application		■	■	
Petition to withdraw from Issue after payment of the issue fee (4 types)		■	■	
Petition to accept late payment of issue fee		■	■	

Do not attempt to submit follow-on submissions for unsupported filing types

Filing highlights

- Web-ADS or Upload Fillable Form (AIA 14)
- Entered fee attributes, such as filing type and entity status, will determine the fees to be listed (unavailable fees will not be displayed)
- Ability to calculate and pay fees for extension of time for an application
- Multiple documents may be uploaded at once
- Saved submissions will now be stored for 14 days (an increase from the previous seven days in EFS-Web)
- Submission receipt and payment receipt
- Automated document code assignment is more accurate

DOCX highlights

- Safe and stable for creating, authoring, and processing IP documents
- Multi-section documents (specification, claims, and abstract on one single document) is now available
- Automatic page numbering
- Paragraph numbering validation for specification
- Detect independent and dependent claim counts
- Feedback document will show independent and dependent claim count
- Improved validation of claims
 - Improper claim dependency
 - Missing claim numbering
 - Duplicate claim numbering
 - Claim must end in a period
 - Claim must begin with a capital letter
 - Claim must not contain more than one sentence
- Automatic English detection

Retrieval highlights

- Single search bar for retrieving applications
- New filters to minimize applications/submissions displayed
- Customizable views with the ability to add and remove columns
- Option to download XML from all pages, a single page, or multiple applications on page
- Preview and download outgoing correspondence
- Modify single and multiple attorney docket numbers
- Docket number filter for exact, starts with, and contains options
- View and download receipts for the last 40 submissions filed
- Create/update customer number
 - Attorneys not currently enrolled in Patent Center will be displayed
 - Independent Inventors can now create a new customer number
- Sponsorship
 - View active and pending requests for sponsorship
 - Remove current sponsorships
 - Approve or deny sponsorship requests (practitioner)

Patent center interface

Authentication

Registered user

The image shows two overlapping windows from a web application. The background window is titled "Sign in" and contains a form with the following elements: "Email address *" with a text input field and a link for "USPTO employee?"; "Password *" with a text input field; a checked checkbox for "Remember my email address"; a blue "Sign in" button; a footer with links for "Forgot password?" and "Create an account"; and a disclaimer: "By signing in, I certify to the USPTO's Terms of Use and USPTO Privacy Policy." The foreground window is titled "Two-step authentication" and contains: "Step 1 of 2"; a note: "Two-step authentication provides an extra layer of security to your account by requiring you to enter an authentication code. Note: Two-step authentication may be required in order to access certain areas within the site."; a "Receive code via:" label; a radio button selected for "Email (pvt*****04@gmail.com)"; and a blue "Next" button.

Guest user

Warning/Error Message

The image shows a "Warning" dialog box with a close button (X) in the top right corner. The message text reads: "As a **guest user**, you can file a new application and view public applications. Please sign-in or register for Patent Center, in order to have full access to all features, such as the ability to save your submission to resume at a later time and to submit additional documents/fees to an existing application." At the bottom right of the dialog is a blue "Continue" button.

Patent Center–workbench–saved submissions

The screenshot shows the USPTO Patent Center interface. At the top, the 'uspto' logo is on the left, and navigation links for 'Patents', 'Trademarks', 'Fees and payment', 'Help', and 'MyUSPTO' are on the right. Below this is the 'Patent Center' header. A blue navigation bar contains links for 'Home', 'New submission', 'Existing submissions', 'Petitions', 'Post grant', 'Workbench', 'Manage', and 'Search'. The 'Workbench' link is highlighted with a mouse cursor, and a dropdown menu is open, listing 'View saved submissions', 'View applications', 'View correspondence', and 'View Receipt History'. Below the navigation bar, there are tabs for 'Saved Submissions', 'Applications', 'Correspondence', and 'Receipt History'. The 'Saved Submissions' tab is active. On the left, there are filters for 'Customer Numbers' and 'Refine by' (Reset filters, Created in: Past 14 days, Created by: All, Include auto-saved submissions). The main content area shows '0 saved submissions' with filters 'Created in: 14 days', 'Created by: All', and 'Auto Saved: false'. Below this is a table with columns: ID, Date saved, Date created, Attorney docket #, Customer #, Type, Title, and a menu icon. The table is currently empty, displaying 'No results found.' on the right side of the table area. There is also an 'Export' button and an 'Application or Docket # lookup' search box.

Warning

The claims appear to contain duplicate claim numbering.

USPTO

Warning

The claims appear to contain duplicate claim numbering.

USPTO

Warning

This claim number appears to be missing or out of order.

Abstract feedback

Abstract

This is an example of an abstract of the invention. In this abstract example we will exceed 150 words. Since MPEP section 608.01(b) recommends that the number of words in the abstract be within the range of 50-100 words, this is a useful detection provided by our USPTO DOCX system. After detection of the abstract of the invention, the number of words are validated. Upon uploading the abstract, the user is immediately notified if they have exceeded this amount and a feedback document is provided to the user pre-submission. Upon opening the feedback document, a message indicated that the number of words in the abstract has been exceeded will be shown. The user may desire to delete, modify and upload the abstract again. The user will be able to easily identify where the number of words are exceeded since the system will indicate the exact location of the extra words. Here are the extra words.

**USPTO
Warning**

Word count in abstract section is over 150 words.
